Place Your Antenna

1 Find a window that is:

on the top floor of your house.

near an outlet.

facing the direction of the PBS transmitter tower in your area.

Use the map to help you find the tower.

2 Best signal looks like this

If you do not have **4 green bars**:

try it on another window.

try it in another room.

try it on a wall.

Place Your Antenna, Page 2

- 3** When you have good signal, use the 2 Command strips to put the antenna on the window or wall.

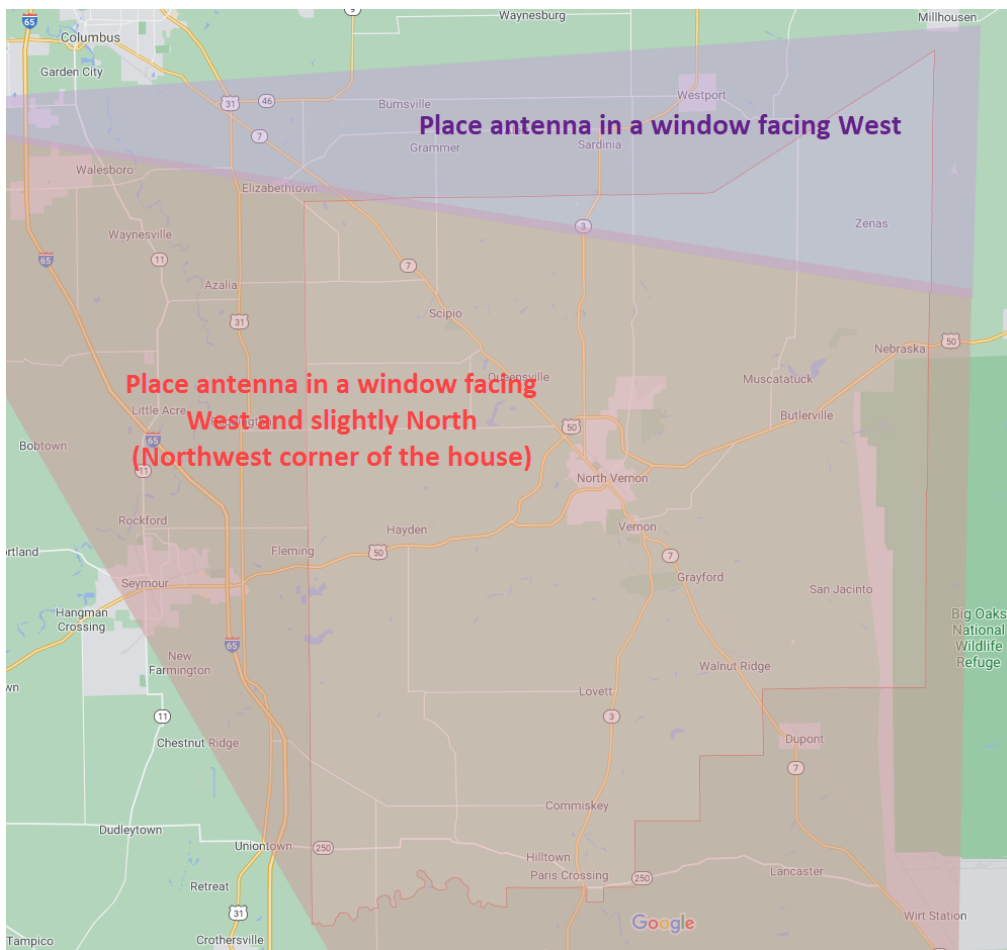

- 4** Always leave your receiver and antenna plugged in.

- 5** Now you are ready for datacasting!

Antenna Placement Map

The datacasting signal will be coming from Bloomington. Based on where you live in the County, you will want the antenna to be in a West or Northwest window.
